

Research at Microsoft

Microsoft Research (MSR)

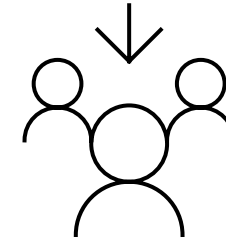

MSR Labs

Long-term basic
research

MSR NExT

New experiences and
technologies

Across Microsoft

Researcher & Scientists working
in product, technology and
business groups

Collaborating globally with researchers, scientists, and industry leaders.

Curiosity-driven research

Envision, create, prototype, solve, lead on questions, challenges, and possibilities

Deployment-driven research

Short-term, immediate, tangible impact to products and business

“Curiosity-driven research and commitment to basic research not only is something that has made Microsoft's progress or Microsoft's own existence possible, but it's that broader impact in the world around us.”

- Satya Nadella

Research Lab Locations

Collaborating globally

Microsoft Research areas support a multi-disciplinary approach

Algorithms

Artificial Intelligence and
Machine Learning

Audio and Acoustics

Computer Vision

Data management, analysis
and visualization

Ecology and
Environment

Economics

Graphics and
Multimedia

Hardware and Devices

Human-computer
interaction
